

# Pulse

J&D Manufacturing continues to grow with new technology to make your life easier. With the Pulse, you can control your systems with the touch of a finger remotely on your tablet or computer. With the ability to monitor and manage your systems quickly and efficiently anytime or anywhere you have internet access, you can be confident you are creating and maintaining optimal conditions throughout your facility.

## THE HEART OF YOUR FACILITY

ENVIRONMENTAL CONTROLS

**Screen**

- Easy to use with intuitive menu
- 15" touch screen

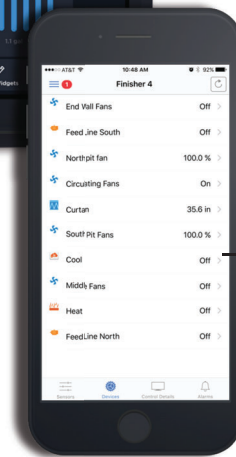

**Quick Glance Status**

- Side lights indicate how well things are running and urgency level

**Remote Control**

- Allows full management from any computer or tablet anywhere (requires internet connection)

**System Alerts**

- Optional app is available for smartphones to monitor alerts

### Features

- Run up to 12 separate rooms from just ONE control
- Outstanding flexibility - 12 card slots come standard but get up to 36 slots by adding two slave modules with 12 card slots each
- Integrated sensors detect when too much or too little power is used
- Intelligent Control so each module can continue to operate even if the main processor stops
- Livestock Tracker lets you maintain an accurate herd count without paper inventory cards
- View historical data to make repairs, refine settings and SAVE \$
- Conforms to UL STDS 61010-1 and 61010-2-201
- Certified to CSA STD C22.2 No. 61010-1
- **2 Limited Year Warranty**

**Control ventilation based on:**

- CFM
- Temperature
- Humidity
- Static pressure
